HOW TO GROW BULBS

Daffodils and Crocuses may be planted in the garden between the first of September and the middle of October; Tulips the latter part of October, but should not be delayed too long if best results are desired. Early-planted bulbs come up more evenly, earlier, and develop finer flowers than those put in later. Hyacinths may be planted any time from September to December.

When grown in beds, Hyacinth and Tulip bulbs should be planted at a uniform depth. The easiest way to do this is to remove all soil from the bed to the depth required, set the bulbs as far apart as the planting-table indicates, and carefully replace the soil. Many people do not think this is worth while; they prefer to plant with a trowel or dibble. Where this practice is followed, great care should be taken to see that the base of the bulb is pressed firmly into the soil.

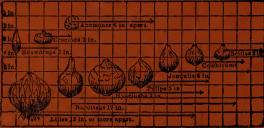

After the ground is frozen to a depth of 4 to 5 inches, it is well to put on a cover of straw or leaves. This should be removed rather early in the spring. Tulips and Hyacinths should be taken up each year. Let the foliage mature, either where they have flowered or in another location. After drying, the bulbs should be kept in a cool, dry place.

Daffodils may remain in the same place for three to four years at a time. The clumps may then be taken up and divided for replanting.

Crocuses give a delightful effect in early spring, but, like Narcissi, should not be planted where grass is kept clipped. They are extremely desirable in naturalistic plantings, but to obtain good effects it is essential that they be used in large quantities; plan to use several thousand in each 50-foot square of woodland or meadow.

Lilies demand good drainage. This may be secured by placing a quantity of sand below each bulb, or by mixing peat or humus with the soil. The tall varieties should be planted in a location where they receive protection from high winds; all of them enjoy partial shade.

CULTURE INDOORS.—Paper-White Narcissi and the Chinese Sacred Lilies are the easiest to grow. A bowl of pebbles and water is the "garden." Hyacinths likewise present little difficulty. Place each bulb in a glass so that the base barely touches the water, and leave them in a cool, dark

Many of our customers are frequently puzzled to know proper depth and distance apart at which bulbs should be planted. The accompanying diagram conveys the information very clearly. The chart will bear careful study.

place until the roots develop. They may then be brought into the light, and will produce just as fine flowers as if they were grown in pots or outdoors. Start the bulbs any time between September and January; for succession of bloom bring them into the light at intervals of several weeks.

A Brighter Future

There is, at this time, ample evidence that the low mark of the country's business depression has been reached.

The coming of normal conditions is almost a positive fact. Therefore, now is the time to order your Garden Bulbs of the highest quality.

You are invited to take a trip through our Catalog and note for yourself the splendid list of New and Recent Introductions as well as Standard Varieties of the Finest Bulbs that can be grown, offered at unusually low prices.

• To Our Friends and Customers •

E TAKE this opportunity to thank our ever-increasing number of customers and friends for their patronage and recommendations during the past and previous seasons.

We have greatly improved our list of bulbs by adding many novelties and recent introductions from foreign and domestic growers of the best reputation, and we commend them to your consideration when placing orders.

Growing conditions abroad have been ideal, the crops large, and we are happy to announce that prices generally have been considerably reduced.

ALL OUR BULBS ARE TOP SIZE, THE FINEST OBTAINABLE

Please notice particularly that the Federal Quarantine Act, now in effect, prohibits the importation of all Narcissus. Our list of American-grown bulbs of Narcissus represents the leading popular sorts and novelties, and may be relied upon to give satisfactory results. As the demand usually exceeds the supply, early buying is suggested.

Early Ordering. Your coöperation is invited. Placing orders early will facilitate delivery at proper time.

Rush Orders may be telegraphed or telephoned at our expense.

Prices of Bulbs, Seeds, Plants, and Supplies are subject to market and tariff changes.

Terms. Prices quoted are net and do not include free transportation, except for seeds in packets, ounces, or quarter-pounds, on which we prepay postage or express to any point in the United States.

Upon delivery of goods to the carrier, ownership passes to the purchaser; when the carrier issues a receipt our responsibility ceases. Claims for damage should be made to the transportation agent at point of delivery.

Non-Warranty. William M. Hunt & Company, Inc., give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs, or plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are to be returned at once.

WILLIAM M. HUNT & COMPANY, Inc.

Darwin Tulips

N. B.—OUR TULIP BULBS ARE ALL TOP SIZE

Undoubtedly, Darwin Tulips are increasing in popularity every season. The colors range from white to purplish black, including shades of crimson, violet, brown, rose, etc. Very effective for planting in shrubbery or in hardy plant borders. The flowers are large, deeply cupped, and are borne on lofty stems which are ideal for cutting and vase use. Gorgeous combinations of color can be made by planting them in broad masses or long, narrow borders. To avoid striking contrasts, use tones of bronze and pale violet with the lavenders—and soft pinks and lavenders, shades which merge into each other and do not clash as violently as the usual red and yellow. If striking effects are desired, try Bleu Aimable in front of City of Haarlem, a vivid, odd, French combination of blue and scarlet; or an even more effective combination of some pale yellow, like Flava (a Cottage Tulip) with a deep red-purple variety, Philippe de Comines or Zulu. The new pale yellows are also good with dark mahogany-red varieties like King Harold. Brilliant reds like Pride of Haarlem and Farncombe Sanders, are best used alone, or against an evergreen background. Dark pinks are good with light pinks and white varieties, like the Cottage Picotee. Forget-me-nots are especially good to associate with pink Tulips. Those marked with * are best for forcing.

Afterglow. 26 in. Possibly the sweetest color-play found in Darwins—rich deep rose laid over salmon-orange, clearer toward the edges; inside a lovely orange-topaz sheen. Promotes harmony in border plantings and looks well in large formal beds.		100 \$5 50	1,000 \$50 00
Anton Mauve. 28 in. Enormous flowers of dull old-rose-purple outside, with dull grayish lilac edges; inside of the petals reddish violet-blue overspread with grayish brown; white base with black anthers. Very tall, strong stems giving the flowers			
great beauty and dignity	1 75 75	10 00 4 50	90 00 40 00
Aphrodite. 30 in. A dark rose-pink flower throughout with a white base suffused with palest blue. Flowers of medium size	1 75	11 00	100 00

Planting of Darwin Tulips

Cottage or May-flowering Tulips in Many Colors

The largest flowers of any Tulips are found in this class, which contains many long-pointed and lily-shaped flowers. All colors imaginable are available among them, except good blues. Many have long stems and some are shorter and some gracefully drooping so that they are excellent in front of taller sorts. They are splendid for cut-flowers and are unsurpassed for garden decoration.

are unsurpassed for garden decoration.	_	400	4.000
Alaska. 28 in. Long canary-yellow petals with butter-colored base, opening to an enormous flower of star-like shape. Half-open, almost exactly like a lily. Very lovely and distinct.	Doz. \$2 50	100 \$18 00	1,000
Ambrosia. 25 in. Superb salmon-orange inside, with yellow and green patterned base; outside color subdued lilac-rose, with gay edging of bright coral or luminous apricot. A stunning, wide-open cup of unusual size. This masterpiece has had a meteoric rise during the few years since its introduction. Its delightful perfume is a great asset	1 75	12 50	\$115 OO
Avis Kennicott. 24 in. Long chrome-yellow flower with black base and anthers. For bedding	1 25	9 00	85 00
Aviso. 28 in. A beautiful shade of salmon-pink. The oval flower is supported on a fine strong stem. Well recommended.	3 50	24 00	
Blushing Bride (Isabella; Shandon Bells). 16 in. Opens sulphur-yellow and turns to carmine-purple, with rosy white flakes. For bedding and forcing	75	5 00	45 00
Bouton d'Or (Golden Beauty). 20 in. Sunflower-yellow. Excellent cut-flower of cup form	75	5 00	45 00
Carrara. 24 in. Graceful, fairy snowballs on light green stems. Pure white, no other tints. Large, rounded cups. Does very well in pans in the greenhouse for middle-March blooms. Has many awards of merit for its perfect form, purity, and long-lasting texture	1 50	10 00	90 00
Dido. 28 in. The delightful copper tints of the new roses can now be had in Tulips. In Dido the body-color is a deep coralpink, edging into light orange; the inside is like costly silk, flaming orange with green and yellow base. Full-blown flowers are 3½ inches deep and of captivating beauty	1 75	12 50	115 00
Dulcinea. 28 in. An extra-early forcing variety. Glowing orange-red, with yellow and greenish base	1 00	6 00	<i>55</i> 00
Fairy Queen. 25 in. Violet-lilac, broadly margined coppery yellow. Perfectly formed flower and one of the most handsome varieties for bedding	75	5 00	45 00
Geisha. 26 in. An unusual color-combination of violet and cream. Exceedingly large variety. Stock limited. \$1.50 each.	I 16 50		
Gesneriana lutea. 26 in. Lemon-yellow, inside buttercup-yellow. Fine. Sweet-scented	75	4 50	40 00
Grenadier. 21 in. Flaming orange; very large flower of lily-like form. The most brilliantly colored of all Tulips	1 00	6 00	55 00
Idyll. 28 in. Almost globular. Color vivid rose, inside shaded salmon; pure yellow base with blue edges	75	5 00	45 00

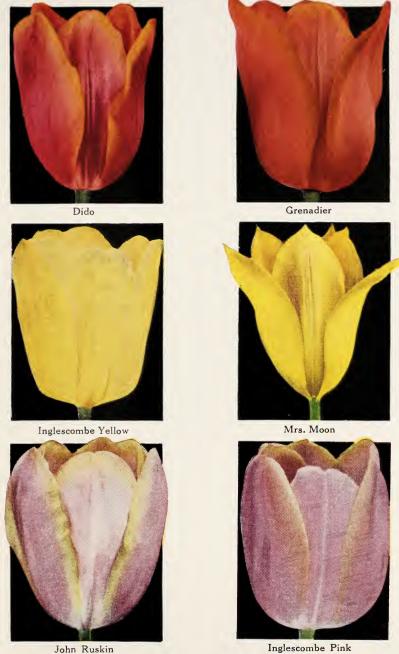

COTTAGE TULIPS, continued

Sent prepaid to any address east of the Mississippi for cash with order.

Lily-flowered Tulips (May-flowering)

This handsome and distinct new race of Tulips has been obtained by crossing Tulipa

retroflexa with a pink Darwin variety, and the result is a sturdy-growing form with large, substantial flowers that still retain the form and elegance of Retroflexa, all segments reflexing a little at the tips. Certain of the finer Cottage Tulips, like Grenadier, Miss Ellen Willmott, Picotee, etc., really belong to this group.

Doz. 100 1.000 100 1.000 Adonis. Long, vivid rosy red flower with reflexed petals . . . \$1 00 \$65 00 Artemis. Long-stemmed; elegantly reflexed petals; bright car-7 00 65 00 Fulgens. Breeder Tulips in Tints and Tones of Royal Loveliness

These are the old Dutch self-colored Tulips, neglected for many years, which modern taste for unusual colors has called into prominence once more. Nature's happiest color-combinations of purple and bronze, gray and lilac, brown and orange, are revealed to us in this group. The flowers are mostly large, of perfect form, and are borne on tall, strong stems. They may be successfully brought into bloom in the greenhouse by the first week of April. In the garden they combine well with the Darwins, and, except in range of color, are indistinguishable from them.

Annie McGregor. 24 in. Deep rose with white base. Fine for planting in borders		\$100 \$10 00	1,000
Attraction. 26 in. Bluish violet-purple outside, glowing purple inside; white base	1 50	9 00	\$80 00
Bacchus. 32 in. Deep violet-blue, with darker bloom; inside light violet-blue, with white star at base	1 00	7 00	65 00
Bronze Queen (Clio; Biscuit). 28 in. Buff-yellow, inside shaded golden bronze; yellow base. For borders, and a good forcer	75	5 00	45 00
Cardinal Manning (Goliath; Kingscourt). 28 in. Claret, flushed rosy bronze, changing to rosy violet	1 00	5 50	50 00
Cherbourg. 32 in. A recent introduction of superlative form. Deep golden yellow flowers are tinted with bronzy lilac and brown. They are produced on strong, long stems and make a wonderful effect when massed for bedding. We have only a limited stock of this variety \$2 each . 1	19 5 0		
Copernicus. 24 in. The flowers are dark coppery bronze shaded with old-rose	1 00	6 50	60 00
Creation. 28 in. A very large flower of deep golden bronze, margined with orange. Its hitherto high price has somewhat retarded its sale, but we are now enabled to offer this at a very low price	6 50	40 00	
Dom Pedro. 24 in. Deep coffee-brown, with margin of golden brown outside, the turned petal showing a yellow and olive base, with overtones of bright mahogany. No flower succeeds in creating a similar symphony in related hues. It is unique, moreover, very fragrant and of a large, beautifully rounded form. Interesting vase Tulip on account of its color and delicate fragrance	1 00	6 50	60 00
Feu Ardent. 26 in. Crimson-red, shaded mahogany. A brilliant flower with yellow base	1 00	6 00	55 00
Garibaldi. 32 in. One of the finest Breeder Tulips ever offered. Lilac-bronze, edged primrose-yellow. Beautifully shaped flower borne on long stem	7 00	50 00	
Godet Parfait. 30 in. Large flower of attractive color—dark plum-violet, with white base and blue halo	1 00	6 50	60 00
Golden Bronze. 25 in. Outside distinctly old-gold, with a shading of lavender, rising from the base nearly to the tips of the petals; inside silky brown, shading to golden bronze; lovely			
yellow center	1 00	6 00	55 00

BREEDER TULIPS, continued

Goldfinch. 30 in. Only in Breeder Tulips can one find such golden tints of fine tortoise, Iuminous yellows, and warm browns in happy harmony. We selected Goldfinch as our very best offering in this color. A gracefully formed Tulip which will grow well in every position, admired wherever placed. Rather scarce and a privileged listing by us		00 00	100 \$7_00	1,000 \$65 00
	-			
Gold Heart. 26 in. One of the best novelties amongst the Breeder Tulips. Produces a large, well-shaped flower of deep brown, shaded with gold	2	5 0	17 50	
Indian Chief. 34 in. Coppery red, flushed purple. Long and artistic flower carried on long, strong stem	6	50	40 00	
James Watt. 26 in. Deep violet, flushed bronze; inside dark mahogany, shaded brown		5 0	10 00	90 00
Jaune d'Œuf (Sunrise). 26 in. Coppery yellow, with broad stripe of lilac; inside bronze-yellow, with dark green center. A splendid variety for forcing and fine for borders	1	00	5 50	50 00
La Turquoise. 26 in. An unusual color-combination—brownish violet, with broad yellow edge. Handsome shaped flower .	1	5 0	10 00	90 00
Louis XIV. 32 in. A royal Tulip. Purple, edged golden bronze; extra-fine, globular flower		75	5 00	45 00
Marechal Victor. 29 in. Clear lavender-blue, with broad margin of bronzy buff; large yellow base edged green	6	50	40 00	
Marie Louise. 24 in. Old-rose, flushed salmon-orange; yellow base streaked olive	1	00	5 50	50 00
Medea. 30 in. Crushed strawberry, shaded heliotrope; yellow center. Large flower	1	00	6 00	55 00
Mrs. Beecher Stowe. 26 in. Clear deep blue, uniform in color. Good form and splendid stem	3	50	20 00	
Panorama. 26 in. Warm terra-cotta with reddish mahogany—a quiet, even tone which covers the huge goblets entirely. The large petals are curved in at the top, so that even on very bright days the flower appears as if closed. A look inside is rewarded by a display of scintillating orange-mahogany on an olive-green base. Easy forcing tendency		75	5 00	45 00
Prince Albert (Alice). 30 in. Warm ochre-brown, with purplish flush through center of petals; green base	1	00	7 00	65 00
Prince of Orange. 27 in. Terra-cotta with orange edge; the open petals warm orange on yellow base, figured with black arrows. Cups elongated, filled with abundant perfume. Ideal			5 50	50.00
Tulip for massed beds and solid border plantings	1	00	5 50	50 00
interest		75	5 00	45 00
Sundance. 28 in. One of the best of last season's novelties. Flowers are beautiful orange, flushed bronze, with lighter bronze edge. A large and strong-growing variety	2	5 0	16 00	
Turenne (Macmahon). 30 in. Soft purplish brown; outer petals shaded heliotrope, with broad margin of amber-yellow; yellow base	1	00	5 50	5 0 00

BREEDER TULIPS, continued

Velvet King. 26 in. Strong violet-purple of a nice, even tone; Doz. inside much brighter; base passing from blue into white. Often possesses an additional petal, and when particularly happy in a preferred position, the plant develops an extra flower from the upper leaf-base. Very sturdy \$1 00	100 \$6 50	1,000 \$60 00
Yellow Perfection (Old Gold). 26 in. Coppery yellow, with edges of softer tone; inside coppery brown; yellow base, starred green	5 50	50 00
BREEDER TULIPS MIXED. A fine selection of foregoing varieties. For massing and bedding	5 00	45 00

Pollux. 22 in. A very rich magenta-purple; very large	30	1 75	10 00
Sagittarius. 26 in. White, turning to very soft pink at top of petals; very large. Extremely tall	35	2 50	17 50
Tucana. 24 in. Light orange, shaded carmine—a splendid color.	30	2 00	15 00

Rembrandt Tulips

These are Darwins in size, shape, and stature, but the colors are in flakes or "feathers"			
sometimes flame-shaped and always attract favorable attention.	Doz.	100	
Apollo. Rosy lilac and white, with deep crimson markings	S1 25	\$7 50	
Butterfly. Soft lilac, with deep carmine stripe	1 00	7 00	
Hebe. Pale lilac-white, splashed deep brown	1 00	7 00	
Red Prince. Fiery red flames on rosy ground. One of the best Rembrandts	1 00	7 00	
Rosy Gem. Rosy lilac and white, with deep red markings	1 25	7 50	
Salome. Carmine-rose, with white markings. Very fine	1 50	9 00	
Victor Hugo. Scarlet and white	1 00	7 00	
MIXTURE. All the above varieties	1 00	6 00	

Collection of Rembrandt Tulips, 12 each of 7 varieties, for \$7.50, postpaid

Bybloem and Bizarre Tulips

These Tulips are an old race which has been grown in France and Holland for many years. Bybloem Tulips are striped and feathered rose or violet on a white ground. The Bizarre Tulips have dark brown stripes and feathering on a yellow ground. While not growing so tall as the Breeder and Darwin Tulips, they flower at the same time, and they are very useful for planting in the herbaceous border, etc.

Bizarre, Mixed. An excellent mixture of the choicest named sorts. \$1 00 \$5 50 Rose Bybloem, Mixed 1 00 6 00 6 00 Violet Bybloem, Mixed 1 00

Parrot Tulips

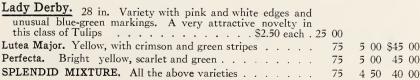

Very large varieties with drooping, parrot-like buds and wide-spreading, fringed and frilled petals with curious markings. Unusual and striking as cut-flowers but not good for bedding or mass display.

Admiral of Constantinople. Red and orange \$0 75 \$5 00 \$45 00 Cramoisi Brillant, Brilliant

75 5 00 45 00

FANTASY. Large, exquisitely handsome flowers of flesh-pink, salmon, and rose-color, with deeply fringed and fantastically frilled petals. The stems are tall, strong, and hold the flowers

1.000 erect. Considered the handsomest and most desirable of the Doz.

Single Early Tulips

The old-fashioned Single Early Tulips are unsurpassed for bedding and, with few exceptions, excellent for forcing. Gardeners are learning that the wholesale discarding of this class, which took place a few years back, was a mistake. The monotony of the solid beds of red and yellow, and the acres of Keizerskroon which used to make our parks and gardens offensive, will never return, but such lovely things as De Wet, Lady Boreel, Pink Beauty, President Lincoln, and Rose Luisante are indispensable in any well-planned garden. Blooming with the narcissus, at a time when bright color is sorely needed, they are treasures indeed. And the handsome thing about them is that they are gone by the time the space is needed for annuals and bedding plants, so that there is no blank interval in the effective use of the ground. The following are the cream of the best varieties.

Deat varieties.			
Belle Alliance (Waterloo). 15 in. Cherry-red of blazing brilliance, with a dazzling yellow center. One of the brightest and most graceful early varieties. Very good for forcing and bed-	Doz.	100	1,000
ding	80 75	\$5 00	\$45 00
Brilliant Star. 12 in. Scarlet, with black center. Early	75	5 00	45 00
Chrysolora. 14 in. Golden yellow flowers of large size and fine form. One of the very best cheaper varieties in this color.			
Splendid for planting outside	1 00	6 00	55 00
Duchesse de Parme. 15 in. Dull blood-red, edged deep yellow. Excellent for bedding	1 00	5 50	50 00
Fred Moore. 15 in. Apricot-brown, shaded at edges of petals to dull orange-yellow. Early forcing	75	5 00	45 00
General de Wet. See page 19.			
Golden Brilliant. Cramoisi Brilliant. Cramoisi Brilliant. Undoubtedly one of the finest early yellow	1 05	0.50	80 00
Tulips for forcing	1 25	8 50	80 00
Ibis. 13 in. Carmine-rose and white, with yellow base. Great improvement on the well-known Flamingo, but of a deeper color	1 00	5 50	50 00
Keizerskroon (Grand Duc). 16 in. Bright crimson-scarlet, edged golden yellow. For bedding and forcing	1 00	6 50	60 00
King of the Yellows. 12 in. Lemon-yellow. Early. Very hand- some for cutting	1 25	7 50	70 00
Lady Boreel. 11 in. Snow-white, large, long flower. Best white for beds. A sport of Joost Van den Vondel	1 00	6 00	55 00
Mon Tresor. 12 in. Pure yellow. The best yellow Tulip for early forcing	1 00	6 50	60 00
Pink Beauty. 13 in. Very lovely flower with deep ovoid petals. The three inner petals are brilliant scarlet-pink and the three outer ones are bordered with the same color, leaving a long, triangular white center running to a point at the tip, so that the flower, on the outside, appears to have scarlet and white in broad stripes. The base of the flower is white, with an intense yellow center and orange-yellow anthers. This is one of the handsomest Tulips in any class. No Darwin variety can ap-			
proach it in brilliance and sheer loveliness	1 25	8 00	75 00
Pink Delight. 14 in. Deep rosy pink. Very large and distinct	1 50	0.50	00.00
flower of globular shape President Lincoln. 14 in. A charming Tulip of soft magenta- violet. An unusual color in this class, and excellent for bedding	1 50	9 50	90 00
in close connection with pale yellow narcissus which bloom at the same time	1 00	6 50	60 00
at the same time	1 00	0 00	00 00

SINGLE EARLY TULIPS, continued Doz.	100	1,000
Prince of Austria. 14 in. Fine orange-red; sweet-scented \$1 00	\$5 50	\$50 00
Proserpine. 14 in. Claret-red. The earliest variety for forcing and also excellent for bedding	6 50	60 00
Rising Sun. 16 in. Deep golden yellow. Excellent bedder. A sport of the old Duchesse de Parme 1 00	·6 00	55 00
Rose Luisante. 14 in. Brilliant deep rose-pink. Superb for bedding or late forcing	6 00	55 00
Van der Neer. 12 in. Intense violet-rose, or rose-purple. Extremely handsome silky flower of large size and perfect shape 1 25	7 50	70 00
Vermillon Brillant. 13 in. Vermillon-red. Extra good for early forcing	5 50	50 00
White Beauty (Albion). 13 in. A greatly improved form of La Reine. Pure white. Extra early	7 50	70 00
Yellow Prince (Golden Prince). 13 in. Chrome-yellow, streaked with dull red, deepens with age; sweet-scented. The most popular yellow	5 50	50 00
EARLY TULIPS MIXED. A fine selection of all the above varieties. Splendid and economical for cutting	4 50	40 00
Double Early Tulips		
Very showy and lasting; splendid for beds and borders and for Double Early Tulips have been much maligned but for long-lasting season, nothing is better, and some of the best have really lovely form	color earl	in pots.
Boule de Neige. 12 in. Sulphury white, enormous, double flower, resembling a white peony. Extra-good bedder and forcer. \$1 00	100 \$5 50	1,000 \$50 00
El Toreador. 13 in. Raspberry-red, edged buff-yellow—splendid color. Attractive for forcing or bedding	7 50	70 00
Golden King. 13 in. Soft canary-yellow, shaded deeper yellow. Large and handsome. For bedding	8 00	75 00
Imperator Rubrorum. 14 in. Blood-red. Recommended for forcing and a good bedder	6 50	60 00
Marechal Niel. 11 in. Canary-yellow, flushed with orange—a very striking color. Splendid for both outdoor planting and		
forcing	32 00	
Mr. Van der Hoef. 12 in. Deep pure yellow. The best of its color. Extra-good bedder and forcer	5 50	50 00
Murillo. 12 in. White flower with delicate rose-pink flush. The petals are symmetrically arranged, so that it resembles a small, loose-flowered peony. Lasts a long time in the garden and is most delightful. The best double for forcing or bedding	5 00	45 00
Orange Nassau. 11 in. Bright orange-red novelty. Recommended for planting in beds, setting out, or grouping borders . 2 25	17 50	
Peach Blossom. 12 in. Bright rose-pink, flushed white. Large, double flower and very handsome color. A sport of the well-known Murillo	5 50	50 00
Rose d'Amour. 12 in. Very soft rose, deepening with age to peach-blossom-rose. A beautifully shaped flower and a very lovely color. Very good bedder	10 00	
20		

DOUBLE EARLY THURS (C.)	
DOUBLE EARLY TULIPS, continued	4.000
Schoonoord. 12 in. A cream-white sport of Murillo. Extra good Doz. 100 for forcing and bedding	1,000 \$50 00
Tea-rose (Safrano; Brimstone Beauty). 12 in. Soft pale yellow,	\$70 00
beautifully tinged flesh-rose as the flower ages. Very good	
bedder and splendid forcer	45 00
Tournesol Red and Yellow. 11 in. Red, tinged deep orange- yellow. Very early forcing variety	EE 00
yellow. Very early forcing variety	55 00
opened. For beds and good for late forcing 1 00 5 50	50 00
DOUBLE MIXED TULIPS	40 00
Ground-Covers and Companion Flowers for Bea	gnibb
with Tulips and Other Bulbs	
Forget-me-nots (Myosotis). Exquisite as an underplanting for pink, Doz.	100
white, and pale yellow tulips, and a good ground-cover after they have	_
gone	\$22 00
Mertensia virginica (Bluebells). Lovely clusters of drooping, pale blue bells. Fine with light pink or pale yellow tulips and daffodils 3 50	25 00
Rock Cress (Arabis alpina). Pure white flowers in solid drifts—fine	25 00
with daffodils and early tulips. Blooms too early to work well with	
Darwins and Breeders	22 00
Veronica repens. A dense, carpet-like plant covered in late tulip-time with tiny points of brilliant blue. Wonderful little ground-cover and	
spreads rapidly	25 00
Viola cornuta (The Horned Pansy). Exquisite, graceful flowers like	20.00
large violets, in many colors. Combines well with tulips of all shades . 2 50	20 00
Botanical Tulips	
Plant in generous clumps in good soil, preferably at the base of a fairly large	shelter-
ing rock, which will serve both as protection and as a background when they are i	n flower.
Clusiana. 12 in. Carmine-rose, with white edge. It is sometimes Doz. 100 known as the "Candy-stick" Tulip because of its delicately	1,000
red-and-white striped effect when partly open \$1 00 \$7 00	\$65 00
Cornuta stenopetala. 10 in. Crimson, with points of petals rich	
yellow	
Eichleri. 11 in. Large; brilliant scarlet, with black center. A handsome, permanent variety of highest class 1 25 8 50	80 00
Florentina sylvestris. 18 in. Produces fragrant yellow blooms,	00 00
sometimes two on a stem. This variety increases yearly when	
acclimated	60 00
Fosteriana. 12 in. Very large; brilliant red \$1.50 each . 16 50	
Greigi. 9 in. Fiery orange-red. The foliage is most peculiarly streaked and dotted with purple-brown 2 25 16 00	
Kaufmanniana. 6 in. Cream-white, tinted carmine outside; yel-	
low center. The earliest variety and more beautiful than many	90.00
late garden varieties	80 00 75 00
Micheliana. 9 in. Red with very large black center 3 00 20 00	75 00
Præstans, Tall. 10 in. An attractive orange-red Tulip that often	
bears four or five flowers on a stem	
Præstans, Dwarf. 7 in. Blooms scarlet-red. Earlier than preceding	
ceding	

Polyanthus Narcissus

Paper-White. Kept a few weeks in the dark after setting, to develop root-action, then brought to a light, airy room, temperature about 60 degrees, the white, fragrant trusses will open in about six to seven weeks.	100	1,000
Mammoth Bulbs. XXX	\$8 00	\$75 00
Large Bulbs, XX	7 50	70 00
Gloriosa. Large; white with orange cup. Splendid variety for forcing. Large Bulbs	12.00	110 00
Soleil d'Or. Pale yellow perianth, orange cup; termed the "Yellow Paper-White."	12 00	110 00
Mammoth Bulbs. XXX 2 50	18 00	170 00
Large Bulbs, XX	14 00	135 00
Chinese Sacred Lilies. Produces flowers in clusters similar to those of the Paper-White Narcissus. Splendid in pots, bowls, soil or water with pebbles. They may be had in bloom in six to eight weeks' time 35 cts, each . 3 00		

Narcissus That Flower from March to May

Narcissus, or Daffodils, vie with early tulips for popularity in spring gardens. They bloom from March into the middle of May. Many varieties may be forced in greenhouses or grown in pots or dishes in the home, for they are very easy to cultivate.

<u>Æolus.</u> (<i>Trumpet-Bicolor.</i>) Snow-white perianth; long yellow trumpet with beautifully frilled and recurved brim. Giant exhibition variety. Disseminators of this variety claim it to	100	1,000
be the largest and most perfect Bicolor in existence today . \$7 00	\$50 00	
Albatross. (Barri.) Perianth white; pale lemon cup frilled orange-red	10 00	\$90 00
Autocrat. (Incomparabilis.) Clear golden yellow, with broad perianth. Small flowers but very fine variety for the border or in pots	10 00	90 00
Barri Conspicuus. (Barri.) Straw-yellow perianth, with bright orange cup. Very free bloomer. Excellent for forcing 1 25	9 00	80 00
Bath's Flame. (Barri.) Yellow perianth; deep yellow cup with broad edge of orange-red. Petals very long 3 00	20 00	
Bernardino. (Incomparabilis.) Perianth creamy yellow; cup nicely frilled, and stained deep orange and apricot. A handsome addition to this class	18 00	
C. J. Backhouse. (Incomparabilis.) Yellow perianth; orange-scarlet cup. Very sturdy and of great substance 1 50	10 00	90 00
Cervantes. (Trumpet-Bicolor.) Very early. Primrose trumpet, with creamy perianth	14 00	
Cheerfulness. (Poetaz.) Finest of the new double Poetaz. Cream and orange. Perfectly hardy 4 00	27 50	
Cleopatra. (Trumpet.) Very sturdy and of great substance. Perianth and trumpet deep yellow	20 00	
Crœsus. (Incomparabilis.) Round, imbricated primrose perianth of great size; widely expanded deep red crown. Show variety		
Crystal Queen. (Leedsi.) Pure white perianth; pale primrose cup, passing to white. Flowers 3½ inches across 4 00	27 50	
Elvira. (Poetaz.) Pure white with yellow eye. Very large and free-flowering	12 00	110 00
Emperor. (Trumpet.) Primrose perianth; golden yellow trum-		
pet. Good forcer. Mother Bulbs. XXX 3 00 First-size Bulbs. XX 2 00	18 00 13 00	170 00 120 00
Empress. (Trumpet-Bicolor.) Sulphur-white perianth; chrome-		
yellow trumpet. Very good for late forcing variety. Mother Bulbs. XXX	18 00 13 00	170 00 120 00
Evangeline. (Leedsi.) Large, pure white perianth; soft lemon cup. Strong grower	8 00	70 00
Firebrand. (Barri.) A combination of creamy white petals and glowing red, fluted cup	9 00	80 00

NARCISSUS, continued

INARCISSUS, continued			
Glory of Sassenheim. (Trumpet-Bicolor.) White perianth; golden yellow trumpet. Large flower of good substance	Doz. \$2 50	100 \$16 00	1,000 \$150 00
Golden Frilled. (Incomparabilis.) Clear yellow, flat, overlapping perianth, with fine, frilled, widely expanded cup	8 00	60 00	
Golden Spur. (Trumpet.) Self-colored deep golden yellow. Well-known variety for early forcing.			
Mother Bulbs. XXX	3 00 2 00		160 00 130 00
Her Grace. (Leedsi.) Large silvery white flower of great substance and refined appearance; cup delicate sulphur-yellow, passing to white, deeply frilled at mouth. We rate this variety very highly	7 00	50 00

Narcissus and Daffodils Mixed for Naturalizing

This mixture contains many varieties of Narcissus and Daffodils that are most suitable for planting in borders, lawns, and woodlands, and comprise sorts which will give an abundance of flowers and continue to thrive indefinitely. \$1.25 per doz., \$9 per 100, \$85 per 1,000.

Roman Hyacinths

Early Roman Hyacinths

The early Roman Hyacinth, with its graceful spike of fragrant bells, is one of the earliest of all winter-flowering bulbs.

New-crop bulbs will be ready in September, when they may be planted in pots or pans of a compost containing two-thirds fibrous loam and one-third sand. They may also be placed in the more artistic ornamental bowls now available in any china store, using our prepared Bulb Fibre as a filler, which only needs to be kept continually moist, requires no additional fertilizer, and in which the bulbs thrive and bloom luxuriantly. Bulbs planted in September bloom in December.

White. Extra large. XXX . \$3 00 \$18 00 White. Selected Bulbs. XX . . 2 50 16 50

Prepared Dutch Hyacinths

These bulbs are intended only for indoor planting and have, both in growing and harvesting, been submitted to a treatment that insures early ripening and leaves them in a condition to respond to intense forcing methods for early bloom. Planted in September, they bloom about the same time as the Roman Hyacinths, or soon after them.

Bismarck. Sky-blue	100 \$14 50
Garibaldi. Dark carmine	14 50
Gertrude. Deep rose	14 50
Grand Monarque. Dark blue	14 50
L'Innocence. Pure white	14 50
Schotel. Light blue	14 50
Victor Emmanuel. Deep rose	14 50
Yellow Hammer. Canary-yellow	14 50

Bulb Fibre. A natural peat fibre, full of nutritious properties for the growing of flower bulbs indoors. This compost acts as a moisture-retainer, which promotes the growth of roots on the bulbs, at the same time releasing its organic fertilizing elements in soluble form, developing and maintaining a steady and sturdy growth on the bulbs until the flowers have matured. Peck \$1.75, bushel \$6.50.

Hyacinths for Garden and Home

Hyacinths may be put to several uses: They may be grown in beds and borders, forced in pots or pans, or grown in water, and are very easy of cultivation. They possess a wonderful perfume, and there are many shades ranging through Pure White, Pale Blue, Lavender, Mauve, Purple, Red, Pink, Blush-White, and Yellow. Suitable alike for the amateur and professional grower.

Single Blue

Bismarck. Sky-blue; very large spike. Excellent for forcing.

Dr. Lieber. Lavender-blue, tinged violet; large, perfect spike.

Duke of Westminster. Large deep purplish blue bells with white center.

Grand Maitre. Deep lavender-blue: large and compact truss. Old popul

Grand Maitre. Deep lavender-blue; large and compact truss. Old popular variety.

King of the Blues. Compact truss of dark blue bells. Late variety. Lord Balfour. Lilac-rose, tinged violet—a very pretty combination. Menelik. Purplish black; large, compact truss. Very distinct.

Queen of the Blues. Pale azure-blue; large spike. Beautiful.

Schotel. Light blue; long, perfect spike. Good forcer. Sir William Mansfield. Bright purple; good truss.

Single Yellow

City of Haarlem. Pure yellow; large truss. Extra-fine exhibition variety. Yellow Hammer. Rich yellow; beautiful truss.

Single White

Arentine Arendsen. Pure white. Extra early.

Grande Blanche. The best blush-white; perfect florets on long spike.

L'Innocence. Pure white. The best white for all purposes.

La Grandesse. Pure white; fine bells. Best exhibition white variety.

Marconi (Red) City of Haarlem (Yellow) Gertrude (Pink) King of the Blues

Single Red and Rose

Garibaldi. Glowing crimson-red. Very early.

Gertrude. Rosy pink; large, compact truss. Old and still popular.

Lady Derby. Rose-pink; large spike. Excellent for pots.

La Victoire. Deep carmine-rose; very fine spike. Splendid for exhibition.

Marconi. Bright rose; large, compact truss.

Queen of the Pinks. Rosy pink; extra-large bells. Perhaps the best of this shade.

Double Hyacinths

Top-size bulbs

Bloksberg. Pale porcelain-blue.

Noble par Merite. Deep rose; splendid bells.

Princess Alice. Pure white.

Golden Daffodil Freesias (See page 32)

Freesias

New-crop bulbs will be ready in July, and if potted at once and kept in a coldframe until leaves are well developed and then brought in and not forced, they can be bloomed early for Christmas.

Novelty Freesias	100	1,000
Elder's Giant White. By far the largest white Freesia in existence; almost twice the size of Purity. Top-size bulbs	212 50	2440.00

Hardy Garden Lilies for Fall and Spring Planting

Hardy Lilies are among the most gorgeous subjects for the garden that can be planted. When happily placed they throw up sturdy stems in an eager desire to unfold their wonderful flowers above the heads of their companions, holding the admiring gaze

of all who pass.

All Lilies do not like the same conditions. The one universal requirement for all is absolutely perfect drainage. The loose, scaly bulbs which Lilies produce are susceptible to rot in wet soil, and it will pay to go to some pains to be sure that the ground for them is properly drained. When Lilies are well established in the garden, it is well to feed them with a top-dressing of manure after the tops have died down in the autumn. It is better to omit manure from the preparation of the Lily-bed before planting.

Some Lilies make two sets of roots, one set below the bulb which nourishes and stores up the food for next year's flowers, and another set above the bulb which supplies moisture and soil-elements for this year's flowers. The bulbs of such Lilies in their natural homes are usually found very deep in the soil. In planting in the autumn, it

75 00 50 00

LILIES, continued

is wise to set such Lilies 6 to 8 inches deep. However, since the roots of Lilies have strong, contractile power, they will seek their own level eventually, so that errors in the depth of planting will be corrected by the Lilies themselves.

Another group of Lilies makes no stem-roots at all. These bulbs should not be put down more than twice the depth of the bulb itself.

Almost all Lilies need a mulch, either of leaves or some living plant, to protect the base of the stems from the summer sun. A few of them do very well when interplanted with low shrubs, such as rhododendrons and azaleas. Almost all of them will benefit by giving the tops plenty of sky-room, so that the flowers can have sunlight.

The most beautiful Lilies are Lilium auratum, L. regale, L. speciosum, varieties

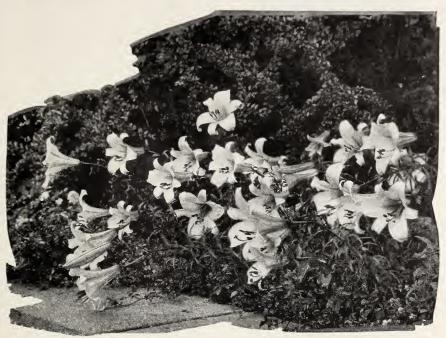

Melpomene and Album, L. tigrinum, and L. Henryi.	losu	<i>m</i> , \	ariei	ties
Auratum (The Golden-banded Lily of Japan). One of the stateliest of Lilies; grows 3 to 6 feet high and bears twenty or more large and fragm 10 inches in diameter. Planted in clumps of six or so, they make an a Flowers white, spotted deep red, with bright yellow band running center of each petal, in August. Mammoth Bulbs Extra-large Bulbs Large Bulbs	rant attra ng t Do \$7 6 3	flow active throuse 50 00 50	rers 8 re sig 1gh 10 \$55 45 27	3 to 5ht. the 00 00 50
Candidum (Madonna or Annunciation Lily). The bulbs we offer are to Northern French-grown; arriving here in September, they should be in groups of from 3 to 6 dotted among the taller-growing perennial placeous border. They make their leaf-growth in October, then die d late the following June—stately spikes of large, white, fragrant flow anthers. The new Hybrid Delphiniums (Wrexham Strain), Campanu and tall-growing pink Gladiolus, planted in proximity make a bord charm in June and July. Specially selected top-size Bulbs. XXX Mammoth Bulbs. Miscellaneous Bulbs for Spring Flowering Amaryllis

For growing in the house or conservatory, few plants produce as striking a display, with so little trouble, as Amaryllis. The bulbs should be potted in the fall, be kept rather dry all winter until growth starts in early spring when they should be watered plentifully, fertilized and lightly shaded. A few weeks, and they break into immense lily-like blooms of gorgeous color and form.

Vittata Hybrids. 'This selection contains a mixture of the finest unnamed Each	Doz.
seedlings in cultivation. The colorings and markings are unique and	
provide a show of unexampled beauty. Extra-large, sound bulbs of	24 = 00
enormous size	\$15 00
White Shades	17 50
Deep Pink Shades	17 50
Solid Red Shades	17 50

Anemone

Gorgeous, whirled flowers of brilliant colors—scarlet, blue, pink, white, etc.—with strongly contrasted centers. They are splendid cut-flowers and make a fine showy bed. In most sections the bulbs need about the same protection afforded pansies. They can be kept in a frame over winter and be moved into the garden when in bud or bloom.

									1,000
French, Single Mixed							. \$1 25	\$7 50	\$70 00

Sardensis. Intense bright blue	. 50	2 75	24 00

Colchicum (Autumn Crocus)

Autumnale major. Planted in September, they produce handsome Doz.	100
flowers like large rosy lavender crocuses within a few weeks. The	
foliage comes in spring and dies down in summer. They are perma-	
nent and increase. Lovely for autumn color \$4 00	\$30 00

Cypripediums (Native Orchids or Ladyslippers)

These hardy plants require acid soil and partial shade. The delicately beautiful blooms have a large, pouched petal or "lip," forming the "slipper," with curiously curled standards or waved perianth of petals and sepals behind it, usually of contrasting colors.

Acaule. Broad leaves, with a single stem between them, bearing a large Doz.	100
pink flower. Strong acid soil, a somewhat dry situation, and plenty of	
shade. One of the loveliest. It may be forced gently in pots with great	
success	\$20 00
Pubescens (Yellow Ladyslipper). Erect, leafy stems bearing several yellow-pouched flowers of great charm, daintily spotted with brown.	
Acid soil, moist ground, and shade	30 00
Spectabile (The Queen's Orchid). Similar to Pubescens in habit, with	
larger flowers. Pouch rose-red or white, stained rose. Peaty, sour soil,	•
plenty of moisture and shade. A swamp plant in the wild. The hand-	-
somest native Orchid. 3 to 4 crowns	65 00

Dielytra (Dicentra)

Dietytia (Dicellia)		
Spectabilis (Bleeding-Heart). Not a bulb, but strong roots which pro-		
duce lovely foliage and long racemes of pink, heart-shaped flowers in		
May. Especially valuable for shady places and for forcing	6 50	50 00

Eremurus

Extremely rare plants of liliaceous habit, throwing up lofty stems bearing tremendous spikes of lily-like flowers. The fleshy, spider-like roots should be planted in a sheltered place because the new growth is susceptible to damage by late spring frost, and ought to be left undisturbed as they improve with age.

range of colors					

Iris (Fleur-de-lis) Add Character to Modern Gardens

Dutch or Holland Iris

Iris Tingitana and Spanish Iris may be grown both in and outdoors. If planted indoors they should not be forced as they will be apt to come blind; given a slow treatment they will bloom without difficulty in the early spring.

Imperator. Early-flowering. Brilliant blue, large and well-shaped flowers on long-strong stems. The best for greenhouse culture. \$10 per 100, \$95 per 1,000.

David Bless. A very early blue variety. \$2.50 per doz., \$15 per 100.

Wedgwood. Was awarded First Prize at last year's International Flower Show, New York. Very early, large blue flower borne on long, strong stems. Splendid for greenhouse, flowering in March. \$4 per doz., \$22.50 per 100.

Albert Cuyp. White with yellow blotch.

Anton Mauve. Soft lilac-blue.

Frans Hals. Creamy yellow, shaded light blue.

Hart Nibbrig. Bright, clear blue.

Hobbema. Pure white with yellow falls, shaded light blue.

Rembrandt. Early. Deep blue, orange dots.

Yellow Queen. Fine-shaped flower of uniform golden yellow.

Any of the above varieties, \$1.50 per doz., \$8 per 100, except as noted

Spanish Iris

Cajanus. Very fine canary-yellow, with orange blotches on the falls.

King of the Blues. Deep blue; large-flowered.

King of the Yellows. Bright yellow.

King of the Whites. Purest white, with orange blotches on the falls.

Prince Henry. Beautiful shade of bronze. Queen Emma. Deep yellow. One of the largest varieties.

All named varieties, \$1.50 per doz., \$7.50 per 100, \$70 per 1,000

SPANISH IRIS, MIXED. A fine mixture of the above varieties; suitable for bedding and cutting. 90 cts. per doz., \$6.50 per 100, \$60 per 1,000.

Iris Germanica (Bearded Iris)

Popular garden perennials for showy landscape effects. We list a sele reasonable price and charming colors. S. means standards, or erect petals;	ected few of

Iris Kaempferi (Japan Iris)

the machine or (superior)
Magnificent garden plants, blooming later than the Bearded Iris, producing hand-
some, flat flowers of great size in enchanting color-combinations.
Gold Bound. Very large, pure white petals with rich yellow center \$7 00
Mahogany. Dark mahogany-red. Very rich and sumptuous 7 00
Oriole. Double flowers of rich red-violet with a velvety purple sheen 7 00
Templeton. Double flowers of light blue with rosy white markings 7 50
Toledo. Single white flowers stained rose
Victor. White shaded purple with violet-blue veins 7 00

Leucojum

Vernum (Spring Snowflake). Similar to the Snowdrop but larger and later, \$1 per doz., \$7.50 per 100, \$70 per 1,000.

Muscari

Botryoides (Grape Hyacinth). Blue. 50c. per doz., \$1.75 per 100, \$15 per 1,000. Alba. White. \$1 per doz., \$5 per 100,

\$40 per 1,000.

Heavenly Blue. Large light blue trusscs. 50 cts. per doz, \$2.50 per 100, \$20 per 1,000.

Nerine (Amaryllidaceae)

Splendid for greenhouse or frames. The bulbs produce large umbels of beautifully colored flowers that keep perfect and fresh for many days when cut.

Corusca major. Scarlet. \$22 per doz.

Fothergilli major. Scarlet. \$22 per doz. Superb Hybrids. From one of the finest collections in cultivation. Many beautiful distinct shades. \$15 per doz.

Oxalis

Grand Duchess Mixed. Dwarf. Lavender, pink, white and yellow flowers. 60 cts. per doz., \$3 per 100, \$25 per 1,000.

Ranunculus

Much like anemones, and require same treatment. Gorgeous flowers in brilliant colors.

French Varieties, Mixed. For bedding or potting. \$1 per doz., \$6 per 100, \$55

per 1,000.

FLORENTINE, Giant Mixed. This is a mixture of the largest and most brilliant-colored flowers. Recommended only for forcing. Strong 2-year-old roots. \$3 per doz., \$17.50 per 100.

Scilla

Splendid for naturalizing.

Sibirica (Blue Squill). 75 cts. per doz., \$4 per 100 \$35 per 1,000.

Campanulata, Blue (Blue Bells). 75 cts. per doz., \$3 per 100, \$25 per 1,000.

Campanulata Alba. White. 75 cts. per doz., \$3 per 100, \$25 per 1,000.

Campanulata Rosea. Fine shade of rose. \$1 per doz., \$5 per 100, \$45 per 1,000. Nutans. The Blue Bells of Scotland. 60 cts. per doz., \$3 per 100, \$25 per 1,000.

SCILLA, continued

SPRING GLORY. A new blue variety of giant size, suitable either for growing in pots or masses in the border. \$2 per doz., \$12 per 100.

Snowdrops

Splendid for naturalizing.

Single. Top-size bulbs. 60 cts. per doz., \$3.50 per 100, \$32 per 1,000.

Double. Top-size bulbs. 75 cts. per doz., \$5 per 100, \$45 per 1,000.

Trillium

Grandiflorum (White Lily). A superb native plant with an erect stem a foot or more high, crowned by three broad leaves in the center of which is a glorious, 3-petaled, lily-like flower. Woodland conditions, shade, and leaf-mold are essential to true success. \$2 per doz., \$10 per 100.

Tritonia

Crocata. Gorgeous tiger-like orange-scarlet flowers. Splendid pot-plants. \$1 per doz., \$7 per 100.

Florentine Ranunculus

Spiraea (Astilbe) Extra-Large Clumps

We recommend the following varieties for forcing or outdoor culture. The clumps we offer are very large and cannot fail to give satisfaction.

Gladstone Spiræa

CULTURE.—They require a compost of equal parts of loam and leafmold and should be potted singly in 6 or 7-inch pots, in October or November. Place in coldframe until required for forcing; water freely when growth begins. Remove to coldframe after flowering and plant out in sunny position in June.

America. Lilac-rose—a beautiful orchid color with large, feathery flower-spikes and beautiful foliage. This variety is one of the very finest and holds its color well. Medium height. (13 weeks.) \$8 per doz.

Ceres. Delicate lavender-pink. Magnificent plumes, frequently measuring over 1½ feet, and altogether one of the showiest of all Spiræas. The foliage is light green; plant very graceful and tall. (13 weeks.) \$14 per doz.

Cassandra. Dense, very double flowers of rosy red—the deepest color yet developed. Graceful foliage. (15 weeks). \$14 per doz.

Tomage. (15 weeks). Wi per dos.
Gladstone. Well-known and best white variety. Flower-spikes are cream-white, Doz. large, full, and feathery. Foliage is compact and deep green. Earlier than the pink kinds. We have a fine stock. (10 weeks)
Gloria Superba. This new variety has attained great popularity because of its brilliant dark pink color. Produces huge panicles of stately blooms borne on long stems. We have a very fine stock of this variety. (12 weeks) 12 00
Juno. Deep lilac-rose. Graceful, spreading foliage. Slender flower-spikes of good shape. Tall grower and latest of all. (14 weeks)
Kriemhilde. A pleasing and peculiar shade of soft creamy salmon with red flower-stems. Heavy, well-shaped plumes and graceful foliage. Medium height. (14 weeks)
Mont Blanc. Clear milk-white flowers. Deep green foliage; of dwarf habit. Free flowering. (14 weeks)
Peach Blossom. True peach-blossom color with red stamens. Full light green foliage. Holds color well. Very fine. (13 weeks)
Philadelphia. Deep lavender-rose. Tall and sturdy grower with abundance of graceful foliage. Heads are full and feathery and the whole plant is large. (14 weeks)
Princess Mary. Deepest rose-pink in commerce today. Flowers have slight lilac cast. Vigorous grower and in every respect a beautiful variety. Medium height. (14 weeks)
Queen Alexandra Improved. Soft light pink, large, individual recurved flowers, borne on heavy plumes. Tall and midseason. Foliage is abundant and of spreading habit with red stems and veins. (12 weeks)
Rubens. Attractive deep rose, with red flower-stems. Flat-growing foliage of glossy dark green. Medium height. (13 weeks)

Watsonia

Like graceful, loosely flowered gladiolus. Very popular for indoor culture.

America. Delicate pink.

Cream Cup. Creamy white.

Estrella. White.

Eunice. Salmon-pink.

Ed. Sturtevant. Brilliant orange.

Hazel. Orange-pink.

J. J. Dean. Rose-pink.

Lilian Benners. Lavender.

Santa Cruz. Deep rose.

Victory. Deep salmon-red.

Ardenia-alba (White South African Bugle Lily).

All varieties, \$3 per doz., \$20 per 100

Winter Aconite (Eranthis)

Bright yellow flowers; valuable for naturalizing. Blooms in early spring. 50 cts. per doz., \$2.50 per 100, \$20 per 1,000.

Hardy Bulbs for Naturalizing

ATURE never plants her flowers in beds and borders. She uses a wide brush and plenty of color, and makes broad sweeps across the big outdoors. To imitate Nature and to surpass her in coloring is no small achievement, but it can be done

by liberal planting of Hardy Bulbs suitable for naturalizing.

In naturalizing bulbs, plant them irregularly. Fill a basket with them and spill it on the ground. Plant the bulbs where they fall—close together in places, far apart in others. Take a quantity of bulbs and dribble them over the ground as you walk. Plant them where they fall. Make no attempt to be systematic or symmetrical. Nature does not work that way. Plant the bulbs with a dibble, making sure that there is no air-space beneath them, then leave them to the care of the great mother in her own outdoors.

CROCUSES. Large, trumpet-like flowers which come in February and March, before their leaves. About 6 inches high. Splendid on hillsides and banks among some low ground-cover or leaves. Shades of Blue, White, Striped, and Yellow. For separate colors, see page 39.

CHIONODOXA (Glory-of-the-Snow). Charming flowers somewhat like scillas, except that the blooms are held erect and are in many variations of blue and lavender. See page 40.

FRITILLARIA. There are two kinds: the

checkered Guinea-Hen Flower for meadows and stream-sides, and the Crown Imperial for showy spots in neglected corners. See page 41.

ELLEBORUS (The Christmas Rose). Under trees or sheltering shrubs, with a slightly sunny exposure, these evergreen plants produce large, anemone-like flowers from November until March. See page 41. HELLEBORUS

LEUCOJUM (Spring Snowflake). Charming, bell-like flowers somewhat like a snowdrop, but larger and flowers later. See page 43.

LILY-OF-THE-VALLEY. Beautiful foliage for a ground-cover. Likes shade. Flowers sweet and fragrant. See page 37. MUSCARI (Grape Hyacinth). Charming blue flowers like clusters of beads. 6 to 12 in. Plant in meadows. See page 43.

NARCISSUS. Plant them under trees, in meadows, beside brooks, on hillsides wherever a sweep of gold and creamy colors is desired in early spring. Combined with scillas and muscari, they make a lovely picture. See pages 23-27 for prices.

SCILLAS. Lovely blue flowers of the most exquisite tint. They bloom very early, covering the ground with sheets of blue, and spread quickly, soon taking possession of the space allotted them. Sibirica is best for naturalizing. The Campanulata va-rieties are taller and later. See page 43.

SNOWDROPS (Galanthus). Earliest flower of spring, with green and white bells peeping above the later snows. Plant on a sunny slope. See page 43.

SPECIES TULIPS. Charming, showy flowers in a wide variety of color. See page 21 for varieties and prices.

WINTER ACONITES. Brilliant yellow flowers which appear in late winter and early spring. Fine under trees and among stones. See above.

Hunt's Newport Golden Antirrhinum (SNAPDRAGON)

This remarkable, new, golden Snap originated in Newport, Rhode Island, several years ago, and was offered by us for the first time last year. It has been a sensational success with all growers, and is comparable in every way with Hunt's famous Geneva Pink.

The flowers are of extraordinary size, beautifully proportioned, clothing the spike from base to tip in a profuse, symmetrical array. The color shades from the delicate tint of a frosty lemon-ice to a rich golden yellow in the center of the lip.

When well grown, the strong, erect stems rise to a height of 5 feet or more, bearing large, healthy foliage of firm, vigorous texture. Seed sown indoors in January and February produces excellent bloom in July and August. May-sown seed affords flowers of exhibition quality for November and December.

Hunt's Newport Golden is the most magnificent yellow Snap we know. It satisfies the long-standing demand for a well-clothed spike of deep yellow flowers. The older yellows are pale and uninteresting in comparison with this sunny marvel. The fullness of the spike, its ease of growth, freedom from disease, and its excellent keeping qualities give it a value far above that of any yellow Snap heretofore introduced. Pkt. \$2, 3 pkts. \$5.

Hunt's Geneva Pink Antirrhinum

(SNAPDRAGON)

Unsurpassed by any new pink-flowering Snap, Hunt's Geneva Pink still reigns supreme, unrivaled and alone. Although dozens of pink varieties have been introduced in the past few years, none have combined as many excellent and useful qualities as this established variety.

When grown under glass, it produces marvelous 6-foot stems with $1\frac{1}{2}$ to 2 feet of enormous, glistening, rose-pink flowers, densely packed, and yet so perfectly balanced that there is no effect of clubbiness or lack of grace. The glowing, fiery pink of the lip of the flowers is greatly enhanced by the pearly shade of the throat and upper petal.

Its stout stems are straight and bear large, dark, lustrous green foliage, seldom troubled by disease. The bloom is produced in abundant profusion, making it one of the most profitable Snaps to grow.

Geneva Pink is the most superb Snapdragon of its color we have ever seen grown under glass, and in the garden it produces wonderful spikes of bloom from early summer until frost.

The true originator's seed is obtainable only in our sealed packets. Pkt. \$1, 3 pkts. \$2.75.

Grass Seed Mixtures

Hunt's Perfection Lawn Seed

This mixture is well worthy the name we have bestowed upon it, and we firmly believe is destined to become the favorite Grass Seed for use where a fine lawn is of importance. It is the result of careful study and trials made during the past few years under varied conditions. Those who have tried out this seed tell us that "we have got the real goods for a perfect lawn." Lb. 80 cts., 20 lbs. \$12.50, 100 lbs. \$60.

Hunt's Perfection Lawn Seed contains 10 per cent South German Mixed Bent (Creeping Bent).

Prospect Park Lawn Seed

With proper care of the soil before sowing it will produce a rich, velvety lawn in six to eight weeks, which will remain green throughout the year. For making new lawns we recommend 5 bushels to the acre; 1 pound of seed will sow 250 square feet; for renovating use one-half this quantity. Lb. 60 cts., 20 lbs. \$10, 100 lbs. \$45, 1,000 lbs. \$425.

Hunt's Lawn Dressing Seed

Unsurpassed for Restoring Old Lawns

Our Lawn Dressing Seed is a scientific blending of the Finest Lawn Seeds with those fertilizing elements that give nourishment to the rootlets, thus insuring perfect growth, fine texture, and deep, rich coloring. Germination and rapid growth are stimulated by its free use.

100-lb. bag, \$40; 50-lb. bag, \$21; 25-lb. bag, \$11; 5-lb. bag, \$3

- MIXTURE FOR SHADY LAWNS AND UNDER TREES. A combination of dwarf-growing grasses which thrive in shaded places. It quickly produces an abundant and even growth of lovely green grass where ordinary lawn seed mixtures fail. Lb. 80 cts., 20 lbs. (bus.) \$12.50, 100 lbs. \$60.
- **TERRACE LAWN SEED.** A mixture of fine stoloniferous grasses specially suited to terraces. Will produce a rich and lasting turf. Sow at the rate of 2 pounds per 100 square feet. This mixture is a combination of such grasses as will make a quick, strong growth taking a firm hold of the soil and prevent washing away by heavy rains. Lb. 80 cts., 20 lbs. \$12.50, 100 lbs. \$60.
- **TENNIS-COURT MIXTURE.** Will make a firm, green and lasting turf in the shortest possible time, that will improve with trampling. Lb. 90 cts., 20 lbs. \$13.50, 100 lbs. \$65.
- SEASHORE MIXTURE. This mixture is peculiarly suited to seaside lawns, etc. Lb. 80 cts., 20 lbs. \$12.50, 100 lbs. \$60.
- **POLO FIELD MIXTURE.** A mixture of specially selected grasses for heavy trampling that will quickly recover from hard usage. 100 lbs. \$65, 500 lbs. \$300.

NEWCARNATION

Giant Laddie

Gorgeous, big blooms of deep, glowing rose-pink, richer and more luminous than the original Laddie, frequently reaching 4 to 5 inches in diameter. The stems are particularly good, and the plant is an exceptionally clean grower and free bloomer. Received a Gold Medal from the Massachusetts Horticultural Society, the Silver Medal at the New York Flower Show, and has been a sensational success at all shows where it has been exhibited. Stocks are scarce; please place orders early.

Rooted cuttings, \$20 for 25 \$75 per 100

Not less than 25 sold
